APPROVED BY MARIE P. FAZIO

NO ONE LEFT BEHIND

As a global citizen, born and raised in Canada to hardworking Italian immigrants, with lived experience of:

- Poverty
- Abuse & Human Rights Violations
- Discrimination
- Institutional Blocking of Access to Justice, Finances and Basic Necessities of Life

I am here to say: It's time for Radical Reform and Change. This is our only way forward.

Dignity - Empathy - Sustainability - Transformation

1-HOUR MEETING

I'm here to listen, collaborate and create real strategies for Canadians.

About Marie

I am a Canadian-Italian business and science professional with almost 30 years of international and local experience. I have worked in Renewable Energy, Education, Technology, and Non-Profits, including as Director of one of the largest Solar Energy companies in the World, REC.

No One Left Behind

I've worked closely with vulnerable communities and cultures all over the world. We need to remove the politics and re-build a new framework based on dignity, empathy and sustainability. This includes:

CO-LEADERSHIP & COUNCILS

No more hierarchies. The people of Canada facing the worst circumstances should be co-leading all decisions the Government makes.

LIVED EXPERIENCE ADVOCATES

Advocates from the community should speak at all Government forums including Parliament to provide first hand, direct experience, such as housing impacts, food and economic poverty, abuse and targeting, and loss of employment/no employment opportunities.

RADICAL & RESPONSIBLE REFORM

Canadians are in crisis, and are being ignored - even when their lives are at risk.

BASIC LIFE NECESSITIES SHOULD NEVER BE PAID FOR

Safe housing, nutrition, essential healthcare, clean water, public transit, legal aid, mental health support, climate adaptation, and digital access should be a basic right for all Canadians. No one should be denied basic necessities because they cannot afford or access them.
